

SURGE X™

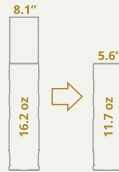

WITH ADAPT™ MODULAR TECHNOLOGY

THE BEST OF BOTH WORLDS

The SurgeX™ is built to provide the best of both worlds. The short configuration is optimized for reduced gas blowback and sound performance, while the long configuration provides maximum suppression. With universal threads (1.375x24), the SurgeX is compatible with any of your favorite industry-standard mounts and includes our R.U.M. for use with our quick detach Dual Taper Locking System.

FEATURES

ADAPT™ Modular Technology

Now you don't have to choose between a compact suppressor and a full size one. With our ADAPT™ Modules, you get two lengths with one tax stamp. So you can have a shorter and lighter suppressor in seconds compared to months.

Rugged Universal Mount R.U.M.

The SurgeX is threaded in 1.375x24 and comes standard with our Rugged Universal Mount. Making it compatible with Rugged's Dual Taper Locking System™ mounts and industry-standard mounts.

Accuracy Proven & Belt Fed Rated®

The SurgeX provides a repeatable minimal zero shift without degrading the accuracy of your rifle and can take a beating. Don't choose between accuracy and durability when you can have both.

UNCONDITIONAL
LIFETIME
WARRANTY

No matter the problem or how it occurred we will work with you to find a solution and fix it.
